Team Firestorm is a Pokémon Go Social Network hosting events in the Pittsburgh region. Our goal is to attract players of all skill types to make friends and improve the gameplay experience.

Ads feature graphics similar to those found in-game when catching Pokémon, but with the familiar Pittsburgh skyline.

## Pokémon Go tips and tricks to help new and returning players catch 'em all

It's always a perfect time to start playing Pokémon Go again. Always.

### PITTSBURGH POKEMON GO

Pokémon Go is now over three years old and it has come a long way since the game was originally released back in 2016.

You may have heard - or even seen in local parks - a summer resurgence for the game. A big reason is Team Go Rocket has arrived, invading PokéStops and attacking Trainers with its fearsome Shadow Pokémon.

All 3 Ads featured on Eurogamer.net – This website features articles and information related to Pokemon Go and is one of the top used resources in the community. We would geo-target players that are viewing the website from the Pittsburgh region.

A screenshot of the Pogomap website. The main area shows a map of Pittsburgh with numerous orange and blue location markers. On the right side, there is a list of 550 "Viewable Locations" including items like "(re)Carstruction", "12,000 Ton Press", "1st Drive-In Filling Sta...", "53rd St Church", "A Piece of Yesterday, To...", "Abandoned Church", "African Lion Exhibit Sign", "Albright Methodist Church", "Alden and Harlow Greenho...", "Allegheny Cemetery Entra...", "Allegheny County Soldier...", "Allegheny County Traffic...", and "Allegheny Observatory". The website header includes "POGOMAP" and "Nest Migration 1 day 4 hours 39 mins".

A medium square ad on Pogomap.info – this website is a geographic lookup of in-game features in Pokemon Go and widely used by players of all skill levels. We would geo-target players that are searching coordinates in the Pittsburgh region.
